

30 DAY USED GUN GUARANTEE

Tombstone Trading Company offers a 30-day guarantee on any used gun we sell. If the used gun you purchase from us has a problem¹, we either fix the problem² or issue a store credit for 100% of the purchase price.

While we have some example scenarios below, if you have specific questions, please ask store management.

Frequently Asked Questions

Q: The gun I purchased malfunctions when I shoot it. Is that covered?

A: Yes! We will take the firearm in for repair and attempt to troubleshoot the problem and resolve it. Be aware that some firearms are picky on the ammunition that they operate with and we may suggest trying another brand of ammo before repairing the gun.

Q: Something broke on the gun after I bought it. Is that covered?

A: Most likely. If the part that is broken is due to regular wear and tear or usage, our 30-day guarantee would cover the situation. If a part is broken due to misuse or abuse, it would not be covered.

Q: Me (or my buddy) are good at fixing things. Can we fix it and be covered?

A: No. Tombstone Trading Company must complete the repairs. Additionally, if a firearm was disassembled to repair the problem, it would not be covered.

Q: Does this cover new guns as well?

A: No. New guns are covered by the manufacturer's warranty.

Q: Is every scenario covered by the 30-day guarantee?

A: No. Tombstone Trading Company reserves the right to issue a refund in lieu of repairing the firearm. This may be due to the lack of availability of parts, cost of repairs vs. retail value of the firearm or some other issue that makes the repair unsafe or unfeasible.

1 - Certain guns may be sold as-is or parts only and disclosed at the time of sale. These firearms are **not** eligible for the 30-day guarantee.

2 - Tombstone Trading Company reserves the right to discontinue repair efforts at any time or choose to not repair the firearm. In this scenario, a refund will be issued for 100% of the purchase price of the firearm.
